KITEBOARDING ELEMENTS

KITE TOYS

Kite Toys design and construct elements of kiteboarding. The installations are made of high density polyethylene (HDPE). Tight welded structures provide great stability and displacement, and 15 mm UV resistant HDPE use ensures high slip control and user safety. In addition, there is no corrosion or deformation due to temperature fluctuations. The components are airtight, so they are leak and tilt-proof, and cannot be overturned. The use of wedge inserts ensures easy and safe installation and accurate adjustment of the connection edges. No rivets and steel elements minimize the risk of injuries and accidents.

Thanks to the modular structure, it is easy to change the configuration, size and function. The components have been designed by wakeboarders and for wakeboarders, so they meet the expectation of even the most demanding athletes and provide the highest level of safety. The offer is constantly being developed and updated. We keep an eye on the latest solutions and consult our projects with professional athletes and kite park owners. We are able to set up any installation as per the clients guidelines.

Our mission is to offer the best possible quality at the lowest possible price. We are a young company of young people and we insist on high quality and competitiveness. We offer flexibility and we are committed to developing long-term partnership with our customers. That is why we provide servicing of our installations and a five-year warranty. We can organize transport and assembly of elements and project support, on request.

CONSULTING – WE ADVISE OUR CLIENTS IN WHICH DIRECTION THEY SHOULD DEVELOP THEIR WAKE PARK AND SUGGEST WHICH ELEMENTS WILL BE MOST USEFUL. WE OFTEN CHANGE THE CONCEPTS THAT OUR CLIENTS HAD AT THE START, WHICH RESULTS IN NEW PROJECTS.

PERFORMANCE – OUR ELEMENTS ARE MADE OF VERY HIGH-QUALITY MATERIALS RESISTANT TO LOW AND HIGH TEMPERATURES, RESISTANT TO UV. THEY ARE WELDED EXTRUDED, THANKS TO WHICH THEY BECOME HERMETIC. IN ADDITION, HIGH-DENSITY POLYSTYRENE INSIDE STIFFENS STRUCTURES AND PREVENTS DROWNING OF THE ELEMENT IN THE EVENT OF ANY DAMAGE.

DESIGNING – EVERY DAY WE EXPAND OUR OFFER, AND AS THE ONLY ONE IN POLAND, WE 'DESIGN TO MEASURE'. WE ARE ABLE TO DESIGN, PRODUCE AND ASSEMBLY ANY PROJECT ACCORDING TO THE CLIENT'S GUIDELINES. - OBVIOUSLY, IN ACCORDANCE WITH GENERALLY ACCEPTED SAFETY STANDARDS.

MADE OF HDPE – ALL OUR ELEMENTS ARE MADE OF HDPE WITH A THICKNESS OF 10-40 MM - DEPENDING ON YOUR NEEDS. CERTIFICATES THAT WE POSSES PROVE THAT, AMONG OTHERS TEMPERATURE RANGE FROM -50C TO + 80C AND UV RESISTANCE. THE USE OF HDPE PROVIDES GREAT SLIP CONTROL AND USER SAFETY, BUT ALSO THE DURABILITY OF THE DESIGN. WE PREFER WHITE, WHICH IS LEAST OF ALL SUBJECT TO DISTORTION AND DISCOLORATION.

MODULAR CONSTRUCTION – WE USE FASTENINGS FOR GROOVES ENSURING EASY AND SAFE ASSEMBLY/DISASSEMBLY AND ACCURATE MATCHING OF CONNECTING EDGES. LACK OF RIVETS AND OTHER STEEL ELEMENTS MINIMIZES THE RISK OF INJURIES AND ACCIDENTS. THE INDIVIDUAL MODULES HAVE A LENGTH OF 4-8 M, WHICH HELPS TO CONVENIENTLY TRANSPORT THEM TO ANY PLACE ON EARTH. MODULAR STRUCTURES ALSO HAVE OTHER ADVANTAGES: IT IS POSSIBLE TO EASILY CHANGE CONFIGURATIONS, SIZES AND FUNCTIONS.

5 YEARS OF GUARANTEE – ON ALL ELEMENTS FROM WAKE TOYS, IN ACCORDANCE WITH THE SIGNED AGREEMENT.

SAFETY OF USE – SAFETY WAS, IS AND WILL BE THE MOST IMPORTANT FOR US! SAFETY FIRST! THEREFORE, ALL PROJECTS HAVE APPROPRIATE APPROACH ANGLES, WITHOUT SHARP EDGES, AND THEIR STRUCTURE GIVES COMFORT EVEN WHEN FALLING. DURING THE CREATION OF THE OFFER, WE MAKE SURE THAT THE ELEMENTS ARE ADAPTED TO THE SKILLS OF PEOPLE USING THE GIVEN WAKE PARK. THE BUYERS ALSO RECEIVE THE TERMS OF USE OF WAKE TOYS.

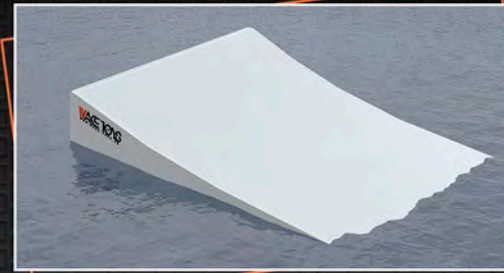

THE HIGHEST QUALITY – IMPORTED MATERIALS OF THE HIGHEST QUALITY, EXACT PERFORMANCE, MAKING ORDERS PRECISELY AND ON TIME
